## Mount Wilson Observers See Invisible Spots

Discovering the invisible at a distance of 93,000,000 miles is some achievement. But the sunny weather of the past few days has been an appropriate time for the latest announcement by the Mt. Wilson observatory scientists.

Invisible sun spots have been discovered. Dr. George Ellery Hale, director of the Mt. Wilson observatory has announced that through their magnetic effects he and his associates have detected solar storms that cannot be photographed or seen through the telescope.

Ten of these invisible spots have been found in the last few months by Drs. Hale, Ellerman and Nicholson, working with the 150-foot tower telescope and the 75-foot spectrocope.

Dr. Nicholson will be the speaker before the Men's Community club at the Congregational Church next Thursday night. His topic will be of a popular character, however, rather than dealing with highly technical matters.

"It is expected that the further study of these objects will help explain the origin and nature of sun spots," Dr. Hale declares.

### Early Discoveries

In 1908 Dr. Hale discovered that a sun spot is a great whirling storm, similar to a terrestrial tornado, but on a gigantic scale, often vastly larger than the earth. The expansion of the hot solar gases, caused by the centrifugal action of the whirl, cools them sufficiently to produce the appearance of a dark cloud, which we call a sun spot. If this cooling is not great enough to produce a visible darkening of the surface, the whirling storm may still be present, though invisible to the eye. Such invisible whirls have now been detected by their magnetic effect on the light emitted by the luminous vapors within them.

Magnetic fields in visible sun spots were first found by Dr. Hale in 1908. They are due to the whirl of electrical particles in the spot vortex, just as the magnetic field of an electro-magnet is produced by the whirl of electrons through its wire coils. The magnetic field in a sun spot is recognized by the effect it produces on the lines in the spot spectrum.

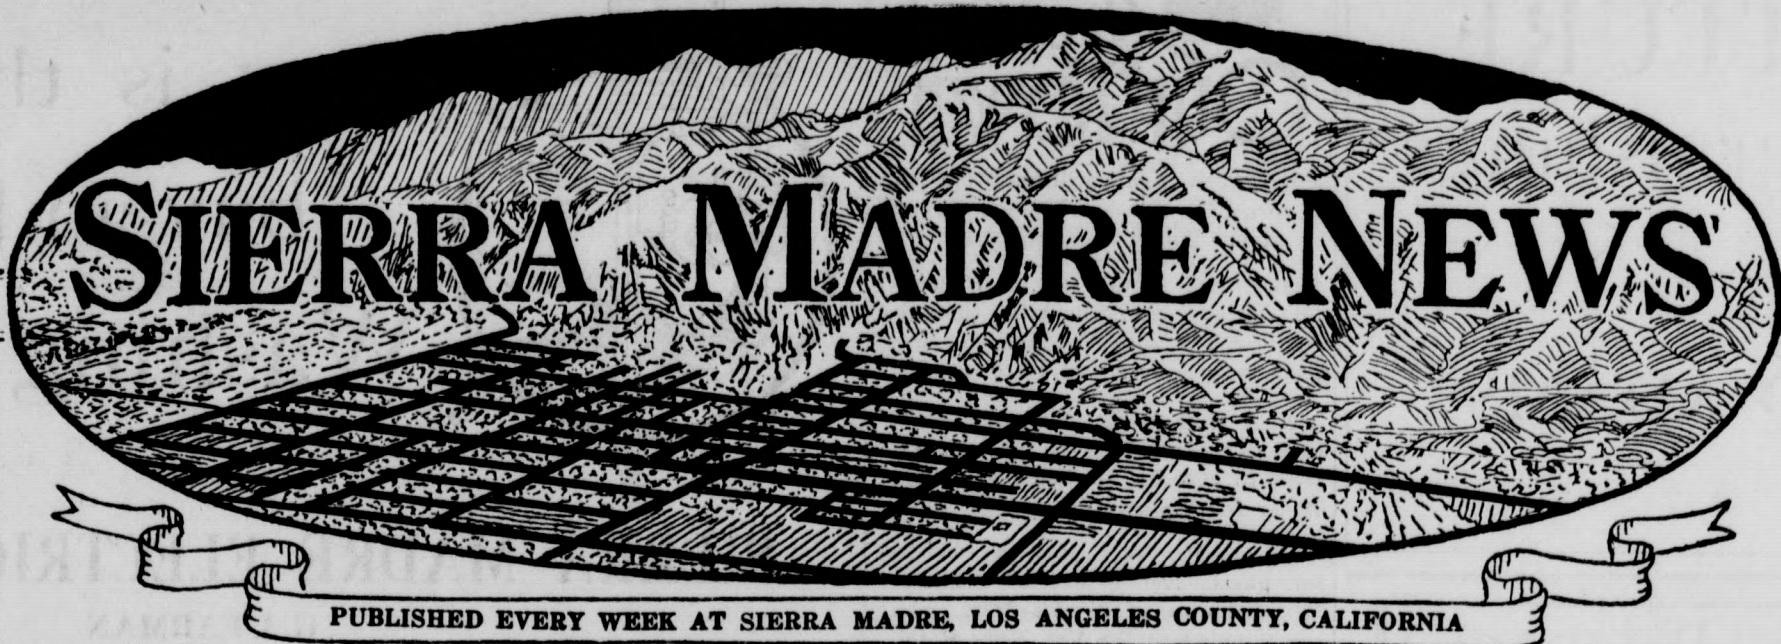

### Birth Foreshadowed

Some invisible spots foreshadow the birth of a visible spot, which finally appears to the eye several days after the first indications of the whirl have been found. Others correspond to the period of decay, and permit a spot to be traced for some time after it ceases to be visible. In other cases the invisible spot never reaches maturity, which means that the cooling produced by expansion never becomes great enough to produce perceptible darkening of the sun's disk.

The Ladies Aid of the Congregational Church will meet at the home of Mrs. W. J. Manchester on North Auburn, Tuesday, June 20, at 2:30 P. M. This is the last meeting of the season and it is hoped that there will be a large attendance of members and friends.

### PAYMENT OF PENSIONS WILL BE MONTHLY

J. R. Oastler calls attention to a bill recently passed by congress and signed by the president which provides for the payment of all government pensions monthly instead of quarterly. This will be a great convenience to many people whose slender pension is the sole income.

## Diplomas Are Distributed to Large Classes

Six Sierra Madre students received their diplomas from Pasadena high school at the commencement exercises Thursday. The program was held early in the evening in Tournament Park in the presence of an immense throng of people.

The Sierra Madre members of the class which numbered more than 400 were:

Edwin Ward  
Lucille Ladd  
Lois Krauter  
Ela Reavis  
Max Colwell  
Mary Ferguson.

Moman Baber, formerly a resident of Sierra Madre but now living in Pasadena, was also among the graduates.

### Grammar School Graduation

The club house was jammed to the point of suffocation for the graduating exercises of the Sierra Madre Grammar School Thursday night. The program was given as previously printed in the News except that the violin numbers were played by Miss Geneva Zubrinsky, a high school student now living in Sierra Madre. Her playing was remarkable for tone and taste in execution and caused many prophecies of a brilliant musical future.

The solos by Mrs. Irene Gay and the duet by Virginia Barbour and Louise Pruden, with accompaniment by Mary Allen met with enthusiastic response from the audience. All the members of the class participating in the program acquitted themselves with credit and showed careful work in preparation. Special mention should be made of the work of Mrs. Moore, Mrs. Glidden and Miss Evans, contributing to the success of the musical numbers. Dean Shaw presented the diplomas with appropriate remarks and at the close of the program the floor was cleared for dancing.

The members of the class are as follows:

|                     |                   |
|---------------------|-------------------|
| Mary Allen          | Clarence Morrison |
| Virginia Barbour    | George O'Banion   |
| Annetta Carter      | Vivian Nix        |
| Russell Davis       | Dolores Oswald    |
| Burton De Groot     | Harry Peterson    |
| Alfred De Temple    | Louise Pruden     |
| Cerna Goldberg      | Velma Reavis      |
| Allen Hearne        | Thelma Reavis     |
| Archibald Jackson   | Dorothy Robinson  |
| Glenn Karger        | Sarah Schwartz    |
| Ethel Karpf         | Dudley Shaw       |
| Louis Krakower      | Vernon Udell      |
| Harley La May       | Helen Waggoner    |
| Dale Langley        | James Warden      |
| Wolfgang Reitherman |                   |

### DYER-HAMLIN

Miss Thelma Dyer of Sierra Madre and Mr. Edward F. Hamlin of Santa Cruz were married on Monday, June 12, at the home of the groom's parents. The ceremony was a quiet, family affair. The bride is a daughter of Mr. and Mrs. George F. Dyer of 163 Grove Street. She was a popular teacher in the Congregational Sunday School. She was recognized as a very capable young woman and in her quiet way endeared herself to a large circle of friends. Mr. Hamlin is the only son of Mr. and Mrs. Francis Hamlin of Santa Cruz, and was for a time stationed at Ross Field Arcadia. He is a musician of much promise and an artist on the cello. He is now playing with the Unique Theater orchestra and Beach band at Santa Cruz and a brilliant career is predicted for him.

## Debate Draws Interested Crowd

### Illuminating Discussion of Proposed Water and Power Act Is Enjoyed

A good sized crowd of Sierra Madre citizens gathered at the Woman's Club House Monday night to listen to the debate on the proposed Water and Power Amendment to the constitution of California. Dr. Horace Porter, formerly mayor of Riverside, spoke in favor of the proposed amendment and Rev. W. C. Shaw, of the Episcopal church, spoke against the act. Both men presented the subject, as he understood it, in a very pleasing manner after which the meeting was thrown open to discussion and questions were asked the speakers. Those present declared themselves very much enlightened as to the proposed amendment which will come before the voters of California in November.

Each speaker was given 40 minutes to present his side of the subject and the first speaker, Dr. Porter, was given fifteen minutes in rebuttal. After the meeting was dismissed, literature both for and against the proposed amendment was given out so that those interested might become better acquainted with the subject which will be voted upon next November.

### HISTORIC FLAG GIVEN SONS OF REVOLUTION

Many Sierra Madre people have seen and admired a flag of great historical interest which has been the property of Captain J. A. Osgood. It is known to have been carried in a procession in Boston which was reviewed by Gen. George Washington in 1789. The flag has recently been presented to the Los Angeles chapter of the Sons of the Revolution of which Captain Osgood is an active and interested member. Sunday morning's Times contained the following item regarding it:

Captain Josiah A. Osgood yesterday presented to the Society of the Sons of the Revolution a flag which is known to have been carried in a procession reviewed by Gen. George Washington in Boston on October 24, 1789. Fifty organizations took part in the procession carrying a flag. Only two of these flags are known to be extant. Freeman Pulsifer, a Bunker Hill veteran, carried the flag past the Boston State House as the procession was reviewed by Gen. Washington. For a number of years the flag was exhibited in the State House in Boston, but it was recently brought to Los Angeles.

In the future the flag will lay in the rooms of the Society of the Sons of the Revolution in this city.

### BIBLE CLASS RALLY

At 2 P. M. on Friday, June 23, where there will be a reunion of Miss King's and Miss Stone's Bible Classes at Bethany church. Miss Rouzee, an unusually magnetic speaker who has been addressing the Woman's Clubs of Los Angeles and surrounding towns, will give a short talk. There will be special music. Everyone welcome.

### SIERRA MADRE MEN JOIN MONROVIA ELKS

Thirteen Sierra Madre men were members of a big class taken into Monrovia Lodge of the B. P. O. E., on Monday evening, June 12. The Monrovia Elks have purchased property on White Oak Ave., west of Myrtle, and expect to erect a commodious club house there, which will be quite convenient for the Sierra Madre members. The following were in the class of Monday night: L. Dietz, A. M. Udell, Harvey H. Steinberger, Tom Henderson, Byron Bush, W. R. Lees, Henry Olsen, Ben Medley, A. T. Gay, Geo. H. Cox, Dr. N. H. Good-Kellogg.

### VALLEY DELEGATION AT MISSION PLAY

A "San Gabriel Valley Night" has been arranged at the Mission Play, San Gabriel, for the night of Wednesday, June 21, under the auspices of the Associated Chambers of Commerce of the San Gabriel Valley.

Mr. McGroarty has made it possible to secure the best seats in the house, which ordinarily sell for \$2.20 each, at the very low price of 85c.

Any person in Sierra Madre desiring to attend this performance of the Mission Play may make reservations at the Chamber of Commerce or by notifying the secretary. It is suggested that reservations be in by 5:00 P. M. Tuesday, June 20th, altho they may be made up to the last minute before the play.

### LADIES ATTENDING WEEKLY LUNCHEONS

The ladies of Sierra Madre are deciding that the men should not have a corner on all the good things in life and more and more are attending the Chamber of Commerce luncheons at the Venture Inn, a goodly number being present Tuesday. Of course they have always been included in the invitation to be present but only a few have previously taken advantage of this Sierra Madre community fellowship hour.

Announcement was made at this luncheon of the Chamber of Commerce Open Forum meeting at the City Hall at 8:00 P. M., Friday June 16. Every member of the Chamber of Commerce is urged to be present and make this a rousing meeting.

### DR. GOODENOW OPENS OFFICE IN MONROVIA

Monrovia Messenger:—Numbered among newcomers here is Dr. N. H. Goodenow who has taken offices in the National Bank building. Dr. Goodenow is an eye, ear, nose and throat specialist with twenty years of experience in that profession. He is a graduate of the Rush Medical College in Chicago and took a post graduate course abroad. He also has the distinction of being among the six or seven medical men in Southern California who are Fellows of the American College of Surgeons. For twelve years Dr. Goodenow practiced at Everett, Washington. A year ago he moved to Sierra Madre where he is now making his home. He is dividing his time between Sierra Madre and Monrovia, being in this city in the afternoons.

### HALF A MILLION TO SEND A LETTER

Money is not worth much. The statement may not be true generally, but it certainly is true as applied to the money represented in postage stamps of some countries.

For instance Samuel Shtamer received a registered letter yesterday from one of the new countries carved out of Eastern Europe since the war. It took so many stamps to send it that a large sheet of paper had to be pasted to the back of the envelope and more than fifty stamps were affixed. Each stamp had a value of 7500 "pye," or something of that kind. The total required to carry the letter was nearly half a million of the monetary units represented by the stamps. That kind of high finance has stage money beaten forty ways.

### INCREASED MISSIONARY EFFORT AT BETHANY

With one representative preaching in Central America, in the person of Mr. Karl Hummel, Bethany Church has just launched a further effort to send the gospel to lands unevangelized. Two members of the congregation, Rev. Fox and Dr. Boyd, are returned missionaries and have built homes in Sierra Madre where they hope to regain their health. These two experienced men have been appointed to take charge of the regular weekly missionary meetings every Wednesday evening at 7:30. This new effort has already been productive of increased giving for missionary work.

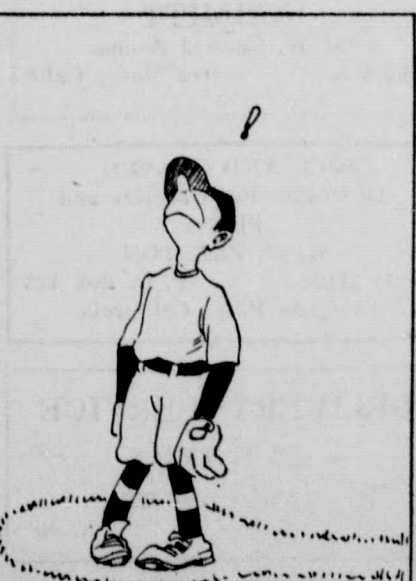

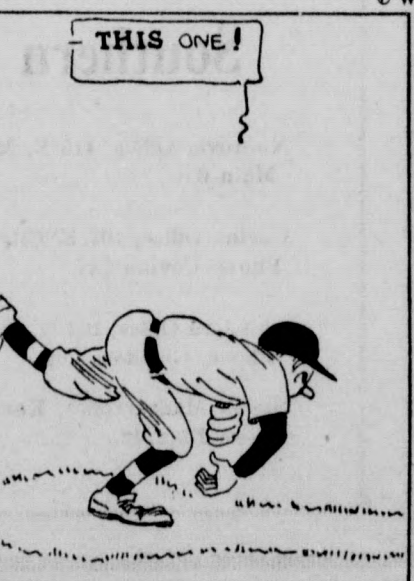

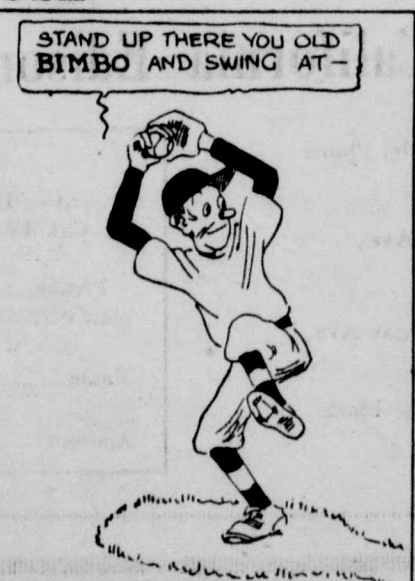

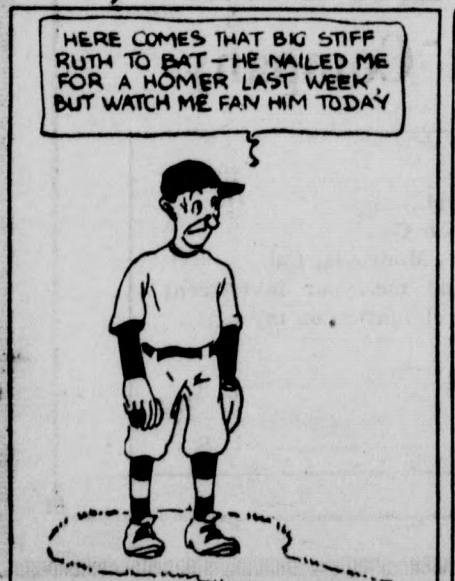

During the past two weeks nearly eighty dollars has been sent, half to the work of evangelizing the Jews and half to Central America. Dr. Boyd who spent more than 20 years in China and had charge of a hospital in Canton, spoke recently of the work there. Rev. Mr. Fox is taking up the subject of India where he labored until ill health compelled him to return with his family. A cordial invitation is extended to everyone to attend these meetings and hear these able men speak.

The ladies' monthly missionary meeting was held on Wednesday at the home of Mrs. W. A. Evans with good attendance. Mrs. Fox and Mrs. Boyd are giving interesting talks at these meetings.

### WAR TOLL TAKEN BY GRIM REAPER

Alex Sellers, a resident of 610 W. Highland the last year, passed away Wednesday night after a long illness resulting from exposure in the British maritime service during the war. Mr. Sellers was twice in British boats torpedoed by the Germans and endured terrible hardships in the water. After the war he was an officer on British passenger steamers plying between England and Mediterranean ports, but was forced to give up work on account of his health being weakened by his war experiences. Friends who made his acquaintance after coming here found him a brave and lovable spirit. He was a member of a Masonic Lodge in Scotland and a Masonic burial was arranged for this afternoon in charge of the officers of Sierra Madre Lodge No. 408. Mr. Sellers is survived by his wife and little daughter.

## Around Our Town

Mrs. C. W. Jones will entertain the  
Modern Priscillas next Thursday, June  
22, at her home, 49 E. Alegria.

Mrs. W. J. Miller left on Wednes-  
day for an extended trip through  
the east and into Canada. She ex-  
pects to be gone about three months.

W. S. Hull left last Saturday for a  
month's trip through the east. He ex-  
pects to visit his old home at Saline,  
Mich., and Walkerville, Ont.

Mr. and Mrs. W. S. Hull were lunch-  
eon guests last Friday of Col. and  
Mrs. Robinson of Windsor, Ont., who  
are stopping at the Van Nuys Hotel.

C. F. Stanley and family enjoyed a  
visit on Thursday from J. R. Finney  
of Los Angeles, who was formerly a  
neighbor in Lawrence, Kansas.

Mrs. Victor Hill and Mrs. George B.  
Morgridge entertained at luncheon  
last Saturday at the Morgridge home,  
seventeen out of town guests being  
present to spend the day.

Miss Dolores Christie left on Sun-  
day for San Francisco in company  
with Mr. and Mrs. Charles C. Ross-  
man of Kansas City who are attend-  
ing the Shrine convention.

Mrs. Fred Wiggins of Kerman, ac-  
companied by her daughter Janetta,  
came down last week to visit her  
mother, Mrs. Alice Staples Sokol. Mrs.  
Wiggins expects to spend the sum-  
mer in the south and is at present en-  
joying an outing at Avalon.

The girls of St. Catherine's will  
hold a card party Tuesday, June 20,  
at 8 o'clock at the home of Mrs. M.  
D. Goodfellow, 41 E. Grand View.  
Fifty cents admission will be charged  
and the proceeds will go to the Neigh-  
borhood Settlement which maintains  
a vacation home for children at Re-  
dondo Beach.

Mrs. James F. Fleming who has re-  
sided for some time past at 271 N.  
Lima, passed away on June 8. The  
remains were taken to the undertak-  
ing parlors of Bergien, Cabot and  
Schmitt and prepared for removal to  
Hollister where funeral services and  
burial took place. Mrs. Fleming is  
survived by her husband and a four-  
year old daughter.

Miss Agnes S. Bush of the Seattle  
Public Library, and a landscape  
painter, is visiting Mrs. Stork and  
Miss Bush at their home on West  
Laurel Avenue. Many delightful so-  
cial activities have marked Miss  
Bush's visit, including a sketching  
trip to Laguna, Long Beach and Cata-  
lina, a reunion of University of Wash-  
ington alumni, the artists' sketching  
party in Sierra Madre last week, and  
many events of the Rotary Interna-  
tional convention.

Mrs. Roland Adams was the host-  
ess at a delightful miscellaneous  
shower on Saturday in honor of Miss  
Claribel Constant. Decorations were  
of Cecil Bruner roses, with favors and  
refreshments in pink. Each guest  
wrote a letter to the bride-to-be, to  
be read on her honeymoon. The  
guests included Misses Elsa and  
Gladys Kraft, Caroline Loos, Mattie  
Seeley, Mmes. Nuetzel, Kraft, Starr,  
Hill, Welsher, Cripps, Smith and Con-  
stant, and Mrs. W. H. Ingraham who  
assisted the hostess.

### Canadian Scenic Parks.

The scenic parks of Canada are:  
Rocky mountains, Jasper and Western  
lakes, in Alberta; Yoho, Glacier, Mount  
Revelstoke and Kootenay, in British  
Columbia; St. Lawrence Islands and  
Point Pelee, in Ontario. The animal  
parks are: Buffalo, Elk Island parks  
and Foremost Antelope reserve, in Al-  
berta.

### MONROVIA LODGE, B. P. O. E. No. 1427

Meets every Monday night at K. P.  
Hall, South Myrtle Avenue.  
Initiation second and fourth Mon-  
days.

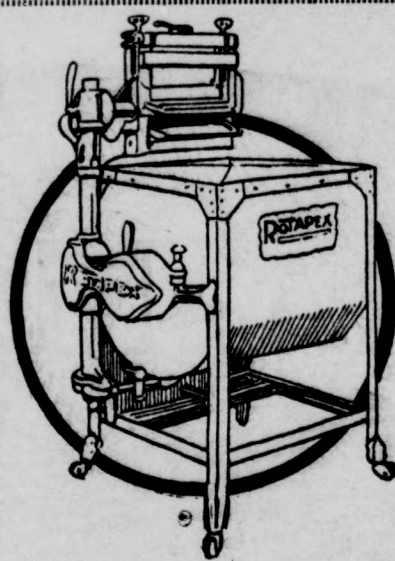

### CUT WORMS

You can rid your ground  
of them with Carco Vegeta-  
ble Spray. It also control:  
snails, slugs, eel worms, and  
kills Aphids. One quart makes  
50 to 125 quarts of spray.

Have you seen Brown's  
\$5 Bucket Sprayer?. It is a  
dandy. \$6.00 delivered.

## HANDICRAFT FOR BOYS

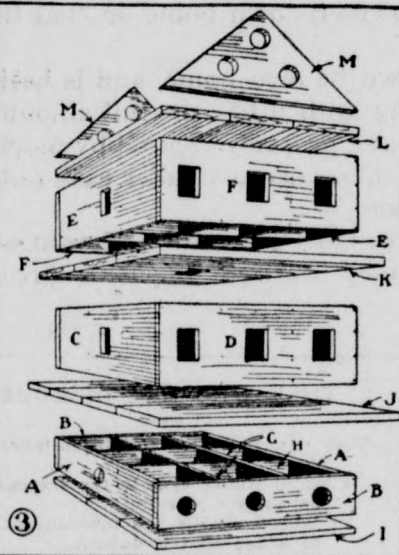

By A. NEELY HALL  
(Copyright by A. Neely Hall.)

### A MARTIN HOUSE.

A 30-room house like that in Fig. 1 is none too large. In designing this I have made the construction of the simplest possible form, with the walls and roof built in sections so they may be separated for cleaning out the compartments (Figs. 3 and 4). The house

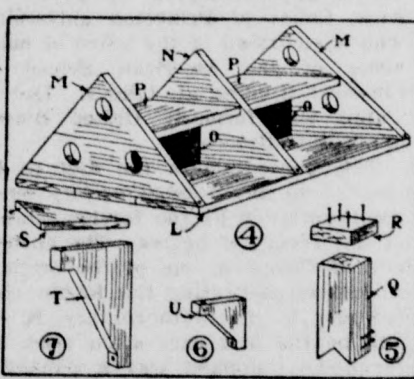

is 24 inches wide, 30 inches long and 35 inches high. First construct the frame which forms the first story walls, out of boards 4 inches wide (A, and B, Fig. 3), then the second story out of 8-inch boards (C and D, Fig. 3), and then the third-story frame out of 8-inch boards (E and F, Fig. 3). Cut boards A, C and E 28 inches long, and boards B, D and F 24 inches long. Cut the doorways before nailing the frames together, but as these should come in the centers of the compartments first mark off the positions of the partitions upon the boards. The first-story diagram shows how two long partitions (G) and six short partitions (H) are set. There will be one round doorway in boards A, and three in boards B. For martins these openings must be two and one-half inches in diameter. Bore several small holes and connect them into one large hole with a chisel. There is one square door-

way in boards C and E, and three in boards D and F, two inches wide and three inches high. After marking them out bore holes in the corners and cut from one hole to another with a small saw.

After cutting the doorways and nailing together the frames, cut and fasten the partitions in place. Then prepare floor boards I to fit the first-story frame, floor boards J to form a three-inch projection upon all sides of the second-story frame, floor boards K to form a two-inch projection upon all sides of the third-story frame, and floor boards L to fit the third-story frame. A hole must be cut through the exact center of floors I, J and K for the post support V (Fig. 2) which extends through the first and second stories. Nail floor boards I, J and K to the under side of the first, second and third-story frames. These sections need not be fastened to one another, because the support will tie them together when they are slipped over it.

Cut gable ends M and partition N (Fig. 3) out of 12-inch boards, making

the angle at peak 45 degrees, and bore three two and one-half-inch doorways through ends M. Nail floor boards L to the bottoms of these pieces (Fig. 4), then fasten partitions O (4 inches wide) between ends M and partition N, and fasten floors P on top. Screw floor L to the third-story walls E.

Cut roof boards long enough to project six inches over the gable ends and side walls, fasten these together in two sections with battens, and screw to the gable ends. Nail the small shelf S (Fig. 4) to the top floor below the gable ends.

Fig. 5 shows the chimney (Q) and its cap (R), Fig. 6 the small brackets U which fasten below shelves S and floor K, and Fig. 7 the brackets T which fasten below floor J.

The bird-house support (V, Fig. 2) is a 2 by 4. Cut brackets W out of two-inch stuff and spike them to V, then nail the 1 by 2-inch strips X to the wide faces of V, below the brackets, so as to make the post of the same form on all sides.

### Why "French" High Heels.

It is said that Louis XVI appeared in court wearing high wooden heels on his shoes. He was not a tall man, and adopted this expedient to make himself regally impressive. The term French heel was applied to high heels and finally to a certain type of high heel.

### Our Oyster Beds.

There are oyster beds along the Atlantic all the way from Cape Cod to Mexico, but the bivalves are not found in the open sea. The oysters would have been exterminated if it had not been for the practice of planting the beds.

### Is a Limitation.

"I like freedom of speech," said Uncle Eben, "but I can't see no sense in any man expectin' de rest of de world to be his audience all de time."

### We Have Met Them.

"Education," said Uncle Eben, "don't do much for some men, 'ceptin' to give 'em mo' vocabulary to talk foolishness."

# "Actually costs me less!"

"It's actually a fact, my dear, that it really costs less for me to take ice than to try and keep house without it!"

Lots of women, mighty fine housekeepers, too, find this fact hard to believe—that the daily use of ice, with the comforts and luxuries it brings, actually costs them little or nothing. But, it doesn't take long to convince anyone once they give it a fair trial.

Suppose you make this trial yourself. Say, for instance, during the next thirty days you take especial pains to see that your ice supply never runs too low.

We believe at the end of a month you'll find that the money you have saved in foods, that would otherwise have spoiled, more than makes up for the few cents spent each day for clear, sparkling DISTILLED-WATER Ice!

## OWNING A HOME

THE average home is mortgaged for 35 per cent of its value.

This is revealed by an analysis of the last census.

There used to be a fear of mortgages. Old-time melodramas, reacting to the popular notion, extracted many buckets of tears from audiences by depicting the miseries of the man who had signed part of his future earnings over to the money-lenders.

We see things in a different light today.

We realize now that it is a wise man who goes into debt, provided the debt is incurred for the purpose of accumulating wealth.

Debt, resulting from the spendthrift spirit, is a vice.

Debt, as a form of compulsory thrift, is a virtue.

The very heart of any country is the home. And the best family is the one that either owns its own home or "has its cap set" in that direction.

The family that wants to own its own home, and is hesitating about buying or building until it has the full amount in cash, might keep in mind that a property secured by mortgage is easier to "move," or sell, because a smaller cash outlay is involved in the transaction.

In accumulating wealth, Debt is as powerful a servant as Compound Interest, though they work in opposite directions.

## THEY WHO ARE CHILDREN

They who forever are children inherit the earth!

They in whose eyes is the freshness of permanent morning.

In whose cheeks the magnificent light of a day that is dawning—

Their glories are more than the lordliest palace is worth!

They who can laugh with the ardor of children at play.

Rejoice in the breeze, and be rapturous over the flowers.

Sing with the robin, and dance their daisies of the hours—

Oh, the wearers of jewels more priceless than diamonds are they!

They who can love like a child without wondering why.

Who measure no satin or gold in the scales with devotion.

But give of themselves like a river embracing the ocean—

Oh, theirs are the richest treasures—the earth and the sky!

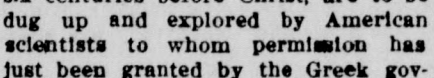

—Stanton A. Coblenz, in New York Sun.

## WILL UNEARTH OLD CITIES

American Scientists Have Been Granted Permission to Make Explorations in Asia Minor.

Ancient cities in Asia Minor, buried six centuries before Christ, are to be dug up and explored by American scientists to whom permission has just been granted by the Greek government, according to a cablegram received at Washington by Prof. Edward Capps of Princeton university, who is chairman of the board of managers of the American School of Classical Studies at Athens. Doctor Capps was formerly United States minister to Greece.

This concession is the first to be granted to any foreign society since the negotiation by the foreign powers of the Treaty of Sevres. The ancient site of Colophon, one of the original 12 cities constituting the Ionian confederacy in the Sixth century, B. C., will be the first excavation work attempted. Colophon was a powerful, rich and large community for many centuries, and its ruins are said to be among the most impressive in size of any of the buried cities of Asia Minor.

## Let Paint Stand the Wear

It Saves the More Costly Material Which It Covers

PAINTED wood does not wear out, because the paint stands the wear. Paint is therefore the secret of durability in homes.

That is why it is economical to keep a home always well painted. Paint costs much less than repairs. Compare the prices of paint and lumber as evidence of this fact.

The second secret of economy is to use the best paint for all painting. The best paint spreads easily—it saves labor cost. It covers more area per gallon than "cheap" paint.

So paint your house when it needs it and use only the best paint.

The best paints are scientific in formula and preparation. We've made them for 73 years—to meet the weather conditions in the West.

The best materials—PIONEER WHITE LEAD, pure linseed oil, pure zinc, and pure colors—are combined in Fuller's Paints in scientifically exact proportions with long-time skill.

### Free Advice on Painting

Ask our agent for advice, color cards, etc. Ask the Fuller Specification Department about the most desirable color schemes, color harmony and any other details.

Makers of Rubber Cement Floor Paint, All Purpose Varnishes, Silkenwhite Enamel, Fifteen for Floors Varnish, Washable Wall Finish, Auto Enamel, Barn and Roof Paint, Porch and Step Paint, and PIONEER WHITE LEAD.

## SIERRA MADRE WOMAN'S CLUB

By Besse Palmer Rhodes

### Luncheon and Program

Monday, June 12, 1922 will be long remembered as a red letter day by the members and friends of the Sierra Madre Woman's Club. In answer to the call of Mrs. M. D. Welscher, who has charge of the monthly luncheons, that the members rally to this, the last luncheon of the club season, 121 persons made reservations.

A special table was reserved for a party of fourteen composed of members of the Manhattan Beach Woman's Club, whose intent was to inspect the club house with a view of getting ideas for a proposed building in their own city.

Another table was reserved for Miss Jean Woodward who was hostess to twelve ladies from Los Angeles, Pasadena and Sierra Madre. Numbers of other club members entertained one or more guests.

Miss Rae Victor, formerly an actress of note and a recent arrival from New York City, gave a most interesting talk on the importance of deep breathing and its great value in the overcoming of obesity, personally demonstrating some of the deep breathing exercises.

Confessing that he had a hobby and that it was, "good citizenship," Judge Taft of Los Angeles spoke forcefully on the seriousness of the privilege of every citizen to vote and to vote intelligently, laying particular stress upon the importance of the Sample Bill, and urging each to read and study it for himself before the election.

Greetings from the Manhattan Beach Woman's Club were offered by president, Mrs. G. Daugherty, Mrs. J. A. Osgood extending an answering welcome.

### Debt Is Cleared

Then came the surprise of the afternoon. The President, Mrs. Milton Steinberger said that after much deliberation she had devised a method by which club members who have not been actively engaged in the work of lifting the club debt might share this responsibility. She said several checks had been handed her to be applied in this manner and urged that these donations might be matched by others. Almost as quickly as the secretary could take the names, pledges to the amount of \$200 were made. The president then presented a check for \$100 withholding the name of the donor at her own request, thus swelling the amount to \$300. This procedure was punctuated with numerous bursts of applause and more applause followed the president's statement that it would now be possible during her administration to clear the club house of the debt. She announced that at the next regular meeting which will be the last of the season, a jollification will be held, an important ceremony of which will be the burning of the mortgage.

Following are the name of those who contributed toward this fund: Mrs. J. A. Osgood, Mrs. Frank Hart, Mrs. J. W. Jameson, Mrs. E. C. Newton, Mrs. W. S. Andrews, Mrs. W. J. Lawless, Mrs. M. D. Welscher, Mrs. L. E. Steinberger, Mrs. Louis Dietz, Miss Florence Vannier, Mrs. J. Milton Steinberger, Mrs. J. T. Mason, Mrs. F. McCarthy of Manhattan Beach, Mrs. William Murphy, Mrs. J. F. Sadler, Mrs. N. H. Goodenow, Mrs. C. H. Baker, Pasadena, Mrs. F. B. Seeley, Mrs. C. J. Pegler, Mrs. Frank Wright, Pasadena, Mrs. N. H. Hosmer, Mrs. S. R. Norris, Mrs. C. W. Jones. It is understood that a number of others would like their names added to this honor roll, and for the benefit of these, let it be known that the club treasurer, Mrs. William Lees, will gladly receive added donations. The request comes from Mrs. Lees that all pledges be paid promptly, in order that her accounts may be ready to turn over to the incoming treasurer at the next meeting of the club.

### Program

A short recess followed the luncheon, giving time for the venting of enthusiasm and the exchange of congratulations.

The afternoon program was a literary treat in the form of delightful book reviews by Mrs. Henry Goodell of San Bernardino.

Just before closing, a cloud appeared on the horizon with the reading of two resignations, one from Mrs. Milton Steinberger and one from Mrs. F. J. Hart, who were recently re-elected president and vice-president respectively. Mrs. Steinberger was elected contrary to her wishes and her intimate friends realize that much to her regret it would be practically impossible for her to serve the club another year at this time. It remains for the new board to appoint two new officers.

### Mission Play

In response to an invitation from (Continued on Page Eight)

## Do You

merely use any soap for your face and hands?

You should use the best—and the best ones are not always the most expensive as the inexpensive cost more in the long run since they waste very rapidly.

Now—we think, of all the soaps, Colgate's Cashmere Bouquet is certainly the best. It is luxurious, lasting and refined.

### PASTE THIS IN YOUR RECIPE BOOK

2 cupfuls milk.  
2 tablespoonfuls flour.  
2 teaspoonfuls Rawleigh's Prepared Mustard.  
¼ teaspoonful Rawleigh's Pepper.  
1 cupful vinegar.  
2 eggs.  
2 teaspoonfuls salt.  
1½ tablespoonfuls sugar.  
2 cupfuls olive oil.

Heat milk to boiling point and add flour mixed with a little cold water. Beat egg and add to the flour and milk. Add mustard, sugar, salt and pepper. Cook until creamy, and add vinegar slowly. When cool beat in the olive oil. Any salad oil may be used.

There is no other Prepared Mustard as good as RAWLEIGH'S.

### Efficiency.

It is a convenience when making  
preserves, after they are put away in a  
closet, to make a list of what you have  
and fasten it on the closet door with a  
pencil attached; then when you take a  
jar out cross it off.

### Stop, Look and Listen.

"Pleasures," said Uncle Ezra, "am  
much like mushrooms. De right kind  
am fine, but you has to be on de look-  
out foh toadstools."—Western Chris-  
tian Advocate.

Points the Way—for Others.  
We are not disparaging idealism, but  
an "idealist" is too frequently a man  
who has high notions of what the  
other fellow ought to do.—Boston  
Transcript.

### Daily Thought.

The world is a comedy to those that  
think, a tragedy to those that feel.—  
Walpole.

**Silk Culture Still Primitive in Japan.**  
The culture of silk in China is an in-  
dustry which is probably 20 centuries  
old, and methods pursued today are  
much the same as the original ones.  
The spinning wheel used by the Pil-  
grims is a modern affair compared  
with some which are to be found in  
operation today in the celestial coun-  
try.

### Find Highest Capability.

Try thyself unweariedly till thou  
findest the highest thing thou art  
capable of doing, faculties and out-  
ward circumstances being duly con-  
sidered, and then do it.—John Stuart  
Mill.

### An Argument for Order.

The importance of being orderly is  
shown in the trouble that generally  
results from misplaced confidence.—  
Boston Transcript.

### Nowadays.

Ask the average man if he prefers  
blondes or brunettes and he will say,  
"Yes, I do."

**More mileage—**  
the result of  
**complete vaporization**

It isn't gasoline that explodes in the cylinder of your car and makes power.

It's gas—air, mixed in the carburetor with gasoline to form vapor.

Red Crown gasoline **vaporizes completely**. It forms a homogeneous mixture with 12 to 16 times its volume of air. That mixture explodes cleanly and powerfully, leaving comparatively little carbon residue on valves, spark plugs and cylinder walls.

That's why you get better mileage out of "Red Crown"—and a cleaner, sweeter-running engine.

Fill at the Red Crown sign—at Standard Oil Service Stations, at garages and at other dealers.

STANDARD OIL COMPANY

### INSTRUCTIONS FOR TROUBLE SHOOTING

#### How to Detect and Remedy the Open Circuit, Short Circuit and Leakage.

Radio circuits are subject to the same ills that the ordinary power circuits are subject to. However, to cure them is not such a difficult task as might be supposed, especially if some logical procedure is used.

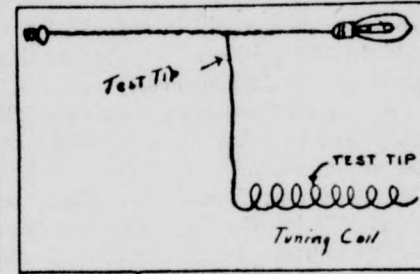

If a receiver is well put together in the first place and all contacts and other parts gone over once in a while, there is no reason why there should be any trouble. But the human being is prone to err, so that for the "once in a while" that is liable to happen, this article will be devoted to the explanation of what might happen to a simple receiver and the best way to fix it.

The usual troubles of the receiver fall under one of the following three headings:

- 1—An open circuit.
- 2—A short circuit.
- 3—Leakage.

An open circuit can most easily be detected by means of a series lamp. Nearly every one has available the ordinary 110 volt lighting circuit. Take an ordinary extension cord and cut one wire at any convenient place and use these two ends as test clips or tips. The extension cord is plugged into the house lighting circuit at any convenient outlet and when the two cut ends are held together the lamp will light as the circuit is closed. When the tips are held open the circuit is "open" and the light will go out.

Suppose it is desired to test for an open circuit in a tuning coil. Connect one tip to one end of the winding and the other test clip to the slider. As the

Testing the Tune Circuit.

slide is moved back and forth the light should remain lighted. If the light goes out at times there is an open circuit in the coil. If the light goes out when the coil is jarred the slider does not make good contact with the winding.

If a buzzer and battery are available they can be used in testing for an open circuit in the same way that the lamp can be used. Connect the battery and buzzer in series with the test clips or tips and any low resistance circuit can be tested.

The ground connections can be tested with a buzzer and battery, but do not use the house-lighting circuit to test for grounds because one side of the lighting circuit is already grounded and if the other side were connected to the ground a short circuit would exist and an excessive current flow.

If the ground wire is connected to the water pipe, connect one test tip to the ground and the other to the gas pipe, which is also grounded. The buzzer should buzz if one has a good low resistance ground.

Leakage usually exists between the antenna and the ground. An antenna should be well insulated from its support. The lead-in should be brought down to the point where it enters the wall of the station in such a manner that when the wind causes it to swing, it cannot touch any grounded material, and that rain and snow cannot cause a path along which the current can ground. In bringing the lead-

To Test Telephone Cords.

in through the wall, insulate it well and inside the station use as short a piece of well-insulated wire as is possible to make good connection with the set.

To test the continuity of the circuit of a pair of telephone receivers, touch the tips of the cord phone to the tongue. If the receivers are in reasonably good condition a slight click will be heard. If the response in one receiver seems to be weaker than that in the other, examine the diaphragm of the receiver giving the weaker response and see if it is bent toward the pole piece. Try tuning the diaphragm over if such is the case. Be careful when the diaphragm of a receiver is removed that the leads of fine wire from the magnet spools to the connection blocks do not become broken in handling.

If the continuity of the circuit of a pair of telephone receivers is checked and no response is heard when the cord tips are touched to the tongue, try checking each receiver of a double head set separately.

The two receivers are connected in

#### TIPS TO THE RADIOIST

The higher the aerial the stronger the signals. An increase of five to ten feet in the height of the flat top aerial will increase signals.

Addition of a variable condenser to the secondary or to the primary of a loose coupler often helps to tune out the undesired signals.

The sliders on tuning coils often make poor contacts with the slide rod. Thus much of the signal strength is lost. You can overcome this by soldering a flexible wire to the slider.

Increase length of spreaders of two, three or four-wire aerials from six to ten feet for best results. Each wire should be from four to six feet from its neighbor. Two wires one or two feet apart are no better than one wire. Likewise four wires on short spreaders are no better than one wire.

series and to check either one separately, short circuit the tips of the cord leading to the other receiver just outside of the case. Should it appear that there is an open circuit in the cord, short circuit both receivers where the cord enters the case and with a buzzer or lamp connected to the tips on the end of the cord test for an open circuit.

Care should be exercised by the operator when adjusting a crystal detector to see that his fingers do not touch the surface of the crystal or the contact point of the little spring. The oil secretion that exists in the skin together with the dust that it collects will render a crystal detector inoperative by the insulating film that it will cause to form on the portion of the crystal surface that is touched. Should the surface of the crystal get dirty as evidenced by the received signals becoming weaker and weaker, try cleaning the crystal with alcohol and a little brush. Or if this does not seem to remedy the trouble, chip off old surface so that an entirely new surface is presented to the spring.

#### AMATEURS SHOULD PLAY FAIR

Radio Inspector Schmidt Urges That They Learn the Laws and Regulations.

Nine out of every ten radio fans are good sports, but the tenth is either a fan with poor judgment or a "rotter." It is up to the amateurs to see that restrictions are not imposed upon them, by playing fair, says Radio Inspector L. R. Schmidt of the Ninth district.

This can be done by observing certain cautions and by becoming posted on the radio laws and regulations. A copy of these regulations may be obtained from the superintendent of documents, government printing office, Washington, D. C., for 15 cents. It is worth while to spend 15 cents in order to be a "square shooter" in the radio game.

The great trouble with amateurs is that when they want to send a message around a corner they put on all the power they have with the hope that some one in Texas might pick up their message. The object should be to use the minimum amount of power to get the message to its destination.

"In all circumstances, except in case of signals or radiograms relating to vessels in distress, all stations shall use the minimum amount of energy necessary to carry out any communication desired."

Amateurs should keep their wave length to 200 meters.

They should use a "pure wave" or, as the regulations state, "if the sending apparatus is of such a character that the energy is radiated in two or more wave lengths, more or less sharply defined, as indicated by a sensitive wave meter, the energy in no one of the lesser waves shall exceed 10 per centum of that in the greater."

The wave must be "sharp." As to this the regulations state: "At all stations the logarithmic decrement per complete oscillation in the wave trains emitted by the transmitter shall not exceed two-tenths when sending distress signals or signals and messages relating thereto."

Amateurs frequently are at fault in calling stations too often. The law states that they can call three times, send "d e e" once and sign their station call three times; but often the amateurs will send the calls a dozen or more times.

#### HOW TO GROUND AN AERIAL

If Properly Done It Really Protects the Property From Lightning.

Generally speaking, aerials do not attract lightning, but they do store up atmospheric electricity, and, of course, this condition does create a hazard. However, when the aerial is properly grounded it then acts as a lightning rod and really protects the property from this electrical hazard.

Briefly, the fire underwriters require that the aerial be grounded when not in use by a copper wire no smaller than B. S. Gauge No. 4 or larger, and run said wire as directly as possible to the outside ground.

This means that water, gas or steam pipes inside the property cannot be used for a lightning ground, because if ever this ground was called into service there is a possibility that fire and loss of life may result. So do not use inside grounds for lightning protection.

## HEALTH LECTURE

Mrs. Frances Wade Gott of Los Angeles will deliver a lecture on "Health and How to Get It" at the Woman's Club House Tuesday, June 20 at 3 p.m., demonstrating that the same power that existed nineteen centuries ago exists today and will heal the body if one learns to co-operate in life with the wonderful God-Principle.

O. M. Hare, a resident of Sierra Madre for several years passed away this morning. Funeral arrangements have not yet been made.

## Goat Mothers Puppies.

An interesting fact was learned at Tulsa, Okla., when a mother goat on the ranch of a millionaire oil man was discovered with eleven registered Alredale puppies she had adopted. The mother of the pups became suddenly ill after the birth, and at the same time a mother goat lost its kid, so the rancher placed the pups with the goat. At first the goat rebelled, but finally allowed the pups to nurse standing up. However, after a week elapsed, the foster mother lay down and allowed her puppy family to enjoy their meals at all hours in a natural position.

## Coffin of Stalagmite.

Doctor Hrdlicka of the National museum was called to the Luray caverns to investigate some bones that had been discovered embedded in a stalagmite. With some difficulty the whole deposit containing the bones was removed in pieces, and the bones were found to be parts of a human skeleton; but the only trace of the skull was a portion of the lower jaw. The museum is studying the specimens.—Scientific American.

## Nature Possibly Indignant.

On a Quebec farm three years ago was born a calf that at the age of six months had nine teats. Five of the teats were cut off, leaving four. A year ago this heifer had a calf, and it was a good ordinary milker, but her calf has but two teats. Was nature too anxious to avoid another surgical operation?

## Oddities Evened Up.

A New Brunswick reader says that a woman in Kent county killed a rooster for Sunday dinner and found that the bird had two livers. He says this keeps New Brunswick up to Ontario with its news of a rooster which had two hearts.—Montreal Family Herald.

## NOTICE TO WATER CONSUMERS

In accordance with Ordinance No. 234 of the City of Sierra Madre, all water bills remaining unpaid after the fifteenth of the month become delinquent and the water will be shut off without further notice. An additional charge of \$1.00 will be made for turning water off and on.

T. HENDERSON,

Water Superintendent.

Paste the Rawleigh Man's Ad in you Recipe Book.

NOTICE INVITING BIDS BY THE CITY OF SIERRA MADRE, CALIFORNIA, FOR THE CONSTRUCTION OF A COMBINATION SETTLING BASIN AND RESERVOIR, AND FOR FURNISHING ALL LABOR AND MATERIALS FOR THE SAME.

Public Notice is hereby given that sealed bids will be received by the City Clerk of the City of Sierra Madre, California, until 7:30 P. M., Thursday, July 6, 1922, for the construction of a combination settling basin and reservoir and for furnishing all labor and materials therefor according to plans and specifications adopted by the Board of Trustees of said City, and on file in the office of the City Clerk of said City, which said plans and specifications are hereby referred to and made a part of this notice.

Said bids must be made on forms which will be furnished by the said City Clerk upon application.

A certified or cashier's check on some bank in the County of Los Angeles, payable to the order of the President of the Board of Trustees of the City of Sierra Madre, for a sum equal to five per cent of the amount of the bid must accompany each bid as a guarantee that the bidder will enter into a contract, if awarded to him, in conformity with his bid.

The successful bidder will be required to give bonds in the amount equal to twenty-five per cent of the contract price for the faithful performance of his contract, and in the amount equal to five per cent of the contract price as a statutory bond for the payment of labor and materials.

The Board of Trustees reserves the right to reject any and all bids hereunder.

By order of the Board of Trustees of the City of Sierra Madre, California.

L. DIETZ,

City Clerk of the City of Sierra Madre, California.  
June 15, 1922.

Paste the Rawleigh Man's Ad in you Recipe Book.

## LIST OF ROOMS KEPT BY CHAMBER OF COMMERCE

The Chamber of Commerce has frequent calls for rooms or accommodations for parties not desiring to rent a complete house. Hereafter the secretary will keep a rental list of rooms and accommodations other than complete houses. Any parties having such quarters to rent will confer a favor upon the Chamber of Commerce and also be of service to visitors and themselves if they will supply the information for accurate listing.

## TWO CANDIDATES RECEIVE MASTER MASON DEGREE

In the presence of an unusually large crowd, Earl K. Stinchcomb and Monte A. Stokes were raised to the sublime degree of Master Mason in Sierra Madre Lodge, F. & A. M., on Tuesday evening. Both edgrees were conferred by C. W. Jones, Master of the Lodge, and the excellence of the ritual work was a source of pleasure to all present.

## A LETTER TO DEAN SHAW AND HIS REPLY

Sierra Madre, June 13, 1922  
Dear Dean Shaw:—

You certainly made one convert at the Woman's Club house meeting last evening and that one is myself. I think this may have been the case with others in spite of the evident bias of the meeting and the noise.

I wanted to ask Mr. Porter how long it would be, in his estimation, before the half billion would begin to pay for itself. It looks to me like rank socialism and the attempt to wipe out all initiative outside of political control.

Why did I not ask Mr. Porter some question you may ask? I did make a start but some speaker in the rear got ahead of me and I believe my unfortunate accident which caused my deafness may have made me more easily scared before an audience.

I write this note to say, I greatly enjoyed your part in the discussion and was surprised and disappointed that you were cut off short in the final remarks made by you.

Yours Truly,

J. A. OSGOOD.

Dean Shaw's Reply

June 14, 1922

Mr. Osgood:—  
It has been my good fortune to have received from you on former occasions notes which I have always appreciated; but none have been more gratifying than that received yesterday. It is only from a deep sense of a religious conviction that I have consented to take any part in this public discussion. Heretofore I have always confined myself strictly to what is known as the "active ministry." But now I am so deeply convinced that a great wrong is being attempted upon the people of California, I can no longer escape this compelling conviction that it is the duty of every religious man to raise his voice and if possible prevent it.

It is indeed rank socialism, but it is more than that. It is a well directed and concerted plan of attack of socialism, not only upon capitalism, but upon all public utilities privately owned, which of course means in the ultimate end the positive destruction of one of the most sacred things in human life, individual initiative and the right of private ownership. Make no mistake in this.

This Water and Power Act is the greatest menace that has ever risen against the common good of the people of California, but the thinking people of California will overwhelm it with utter defeat. With every good wish to both Mrs. Osgood, who shares your conviction, and yourself.

Yours Faithfully,

W. C. SHAW.

## SEMI-WEEKLY SHOWS RESUMED THIS WEEK

Owing to the illness of Mr. E. L. Smith, it was impossible to give a picture show at the Woman's club last Saturday night. However, in the future, shows will be given every Wednesday and Saturday nights. Saturday night will be one of the best programs of the season, with Viola Dana in "Glass Houses," a six reel comedy; also Buster Keaton in a two reel comedy. Prices, children 15; adults 25.

## IRONING OUT THE BUMPS

Street Superintendent Udell is getting the bumps scraped and rolled out of that portion of Mountain Trail Ave., above Grand View. That portion of the street has long resembled a shell-pitted battlefield and the kind of treatment administered by Messrs. Hoover and Trejo is much appreciated by motorists who would be glad to have the good work carried on all summer in various parts of town.

## EAST CENTRAL BRIDGE CLOSED TO TRAFFIC

The bridge over the Little Santa Anita on East Central Avenue will be closed to traffic about ten days. The City of Arcadia is constructing a new bridge in place of the old one.

The item in last week's News to the effect that Dick Johnson was put on probation appears to have been an error, due to the inexact information on the part of News informant regarding the proceedings before Justice Burr of Monrovia. He had been taken into custody by Ranger Hayward for unauthorized use of a mountain cabin but was released without prosecution as were the five Los Angeles boys arrested on a separate charge after a severe lecture and warning by Justice Burr.

## WOMAN'S CLUB

(Continued from Page Five)

John McGroarty, members of the club will be privileged to attend the Mission Play on Tuesday, June 20, matinee, at the extremely low price of 65 cents. Arrangements are being made for another picnic luncheon. Those desiring to join in the outing will please notify Mrs. Thos. Henderson (Green 51) by noon, Saturday, June 17. Mr. McGroarty will reserve picnic space for the Sierra Madre party under the historic grape vine. People are asked to be liberal with their autos so transportation can be provided for members without cars. Each person is asked to bring lunch and meet at the club house, whence the machines will leave at 12:30.

## Dinner Dance

Believing that the social element of Sierra Madre is ripe for another evening of wholesome amusement such as the Woman's Club has furnished many times during the past season, the executive board plans to give a dinner dance as the closing event of the season. No effort will be spared to make this a truly brilliant affair and already numbers of society matrons are making up their parties and planning beautiful table effects. Friday, June 23, has been set as the date and reservations may be made with Mrs. W. R. Lees, Green 79, before Thursday noon of June 21. There will be splendid music, beautiful lighting effects

## MRS. JOSEPHENE B. KISTER

Mrs. Josephine Buschmann Kister passed away Sunday morning, June 11, at her home, 127 Highland Avenue. She is survived by her husband, Dale H. Kister, her mother and father, Mr. and Mr. Joseph Buschmann, a sister Freida Buschmann Middaugh of Erie, Pa., and a grand mother, Josephine Buschmann. Funeral services were held on Tuesday afternoon at 3 o'clock at Bethany Church, Dr. Rawlings officiating. Interment was at Mountain View Cemetery under direction of Bergien, Cabot and Schmitt.

Mr. and Mrs. L. B. Nourse of Arvin were in town Monday and Tuesday. Mr. Nourse returned Tuesday night with a new Ford Sedan that he purchased from the Sierra Madre Garage.

Stafford Sadler arrived Saturday from Corvallis, Oregon where he has been attending the Oregon Agricultural College. He will spend the summer in Sierra Madre.

Orville Kellogg spent several days here this week enjoying our summer weather. Mr. Kellogg is situated on a ranch near Calabasas in the Santa Monica Mountains.

The Ladies of St. Rita's Church will have another of their popular sales of Home Cooked Food. They will have all descriptions of cakes, pies, salads, Boston Beans, etc. The sale will take place in M. D. Welsch's Store on Saturday, June 24th, commencing at 9 A. M.

Have you started the list of things you're going to take with you on your vacation? Start it by writing down, "One cake of Germicidal Soap." Keeps the hands free from germs and is the finest thing going for dandruff. F. H. Hartman & Son. c37

and novel ideas will be worked out to add to the brilliancy of the evening.

## At Luncheon

As the club season nears an end, the president and her faithful board are being entertained at numerous social functions and the days are all too short, filled as they are with the strenuous work and play of the closing season. On Friday, June 9, Mrs. J. Milton Steinberger entertained the members of her board and chairmen of standing committees, with a charmingly appointed luncheon at her home on East Central Avenue. Cleverly designed place cards marked covers for sixteen guests. A mound of pink roses and ferns formed an attractive centred piece, exquisite bouquets of American Beauty roses furnishing other dining room decorations. Yellow flowers predominated in the living rooms where, following luncheon, the guests enjoyed an afternoon at cards. A prize for the high score was awarded to Mrs. W. R. Morgan, Mrs. W. R. Lees receiving the consolation.

A pleasant feature of the luncheon was the enjoyment by the guests of several splendid piano numbers given by Miss Clara Sykes.

## Monthly Cards

Mrs. Spencer Howard, corresponding secretary, having received numerous inquiries as to the monthly cards, wishes the club members to know that no cards have been issued for this month's programs. The reason for this is that last minute changes have had to be made.

WANTED—MAID. 547 W. Highland. FOR RENT—L. C. Smith Typewriter, Phone Blue 162. 37c
